At the Washington DC Veterans Affairs Medical Center, our Capitol Excellence team has a commitment to caring for all Veterans. Did you know that many of our team members are Veterans themselves and that many more of us are the sons, daughters, spouses, sisters and brothers of a Veteran? So we are especially honored to be able to provide Veterans the best possible service and the highest quality health care and to treat every Veteran like they are part of the family.

Before she became the Director of Cardiopulmonary Rehabilitation, Joan Misencik, served 22 years as a nurse in the US Navy. "Whenever I meet a Veteran, we have an instant bond, we both know what it meant to be in the military. We may tease each other about our branches of service, but we respect each other for the service we provided to our country."
